Kyle City Manager Announces New Director of Planning

Kyle City Manager Tom Mattis has announced the selection of Shira Rodgers as Director of Planning for City.

Rodger's previous experience includes serving as Development Planner for Cedar Park, Texas. Her duties will include working closely with citizens and community groups, preparing updates to the City's Comprehensive Plan, and enhancing customer service during the permit review process.

"I'm very please to have Shira here with the City of Kyle," said Mattis. "Her experience with Cedar Park during that city's rapid growth will be a huge plus for Kyle."

As Planning Director, Rodgers will manage both long-range and short-range planning functions, including reviewing the progress of existing projects and participating in the planning of future projects as appropriate.

"I admire Kyle's vision for its future and the City's commitment to preserving the best features of its past," explained Rodgers, "I am thrilled at the opportunity to join this great community."

Rodgers earned a Bachelor of Geography in Urban Planning at Southwest Texas State University, now known as Texas State University.
