

Computer Use

Public Computers

The library has 40 public computers with Internet access. Computers are free to use for those who have library cards or a guest pass can be purchased for \$1.00 without a library card. Computers can be accessed by typing the library card number and PIN. Library users can extend their sessions as long as computers remain available.

The computers automatically shut down ten minutes before closing time. Computer users should save their work to their e-mail or flash drive 15 minutes prior to closing time. All items saved on the computer will be erased.

15 Minute Computers

There are six 15 minute computers located near the circulation desk. These computers are available free of charge for guests and other library users who need quick access for printing items or accessing e-mail. The time may not be extended beyond 15 minutes.

Printouts

All printouts are picked up at the Circulation Desk and are released by a staff member. Computer users will need to know their computer number or library number to obtain prints. Black and white printouts cost 15¢ per page and color printouts cost 65¢.
