### Why is Lake Kyle fenced and gated?

Lake Kyle is a managed conservation preserve and was acquired and developed with grant funding to preserve open space, water quality and natural habitat. Think of it as a city building with a conservation preserve attached to it. Because of this, the park is fenced and gated, has specific park rules to preserve the natural resources and ensure the park for future generations.

**Remember** - Please help us preserve the natural habitat for future generations to enjoy. Trash cans are placed around the park, please deposit trash in cans or "Pack It In & Pack It Out".

To view the current posted schedule for Lake Kyle and hours open to the public, please open the month in the "Supporting Documents" section below.
