

## TexShare Databases

The TexShare Database Program provides a wealth of electronic database resources to over 700 public, academic, and libraries of clinical medicine throughout the state at a significant cost savings.

These electronic databases are powerful research tools available 24 hours a day in the homes or offices of registered patrons of participating Texas libraries. They provide full-text articles from journals, newspapers, magazines, and many other sources. Entire books can be read online. Database topics include homework help for students, health information, business information, biography and genealogy, Hobbies & Crafts Reference Center, Home Improvement Reference Center, Small Engine Repair Reference Center, and Small Business Reference Center. There is also literature and archival information available at the site.

If you are a Kyle Public Library Cardholder, we will provide you with a user id and password in order to sign into the TexShare site. You may drop by the library to obtain the user id and password, or you may send us an email that contains your account number. If you want to learn more about the TexShare databases, you may visit the [TexShare Web Site](#).
