Re: Sgt. Tracy Vrana

While eating breakfast at a local restaurant, Sgt. Vrana and I were speaking and I noticed he started to cough and was unable to catch his breath. I asked him if he was ok a few times and he answered yes. I asked him again and he responded with "no, I'm not!" I quickly got out of my chair and began the Heimlich maneuver in the standing position. Trooper Badillo stepped in to assist and was able to clear the airway for Sgt. Vrana. I was thankful that Trooper Badillo was there and able to assist.
