

CHECKLIST FOR COMMERCIAL BUILDING PERMIT APPLICATION

All plans must be accompanied by a completed **Permit Application with a person's name legibly printed**, signed, and dated by the applicant and a written **Scope of Work** narrative. All commercial projects must indicate the **Construction Type**, **Occupancy Group**, Fire Rated Assembly type(s), the presence of an Automatic Fire sprinkler system with appropriate NFPA Identifier, and Design Occupant Load.

PERMITS (as applicable)		
☐ Texas Department of Licensing and Regulation TABS# (Architectural		
Barriers No. is required if estimated construction cost stated on the		
application is \$50,000.00 or more).		
☐ Projects meeting the design requirements by a state licensed Professional		
Engineer must be sealed and dated.		
☐ Projects meeting the design requirements by a state licensed Architect		
must be sealed and dated.		
☐ Demolition projects exceeding 100 SF must have an Asbestos Containing		
Material report.		

This checklist is designed to help ensure accurate and correct information is submitted for review. Please review the currently adopted codes and amendments in the jurisdiction in which you are applying for a permit.

 STANDARD PLAN FORMAT – All plan sheets shall be drawn to a standard Engineering or Architecture format, scaled, and dimensioned as follows: Site Plan: Base information including: proposed building footprints with elevations at each corner, parking and driveways, utilities, and existing structure(s) such as detention ponds, etc. Each page signed, sealed, and dated by a Texas Licensed Professional Engineer, Registered Professional Land Surveyor, or Architect, as applicable. Contents of plan submittal:
 Cover sheet with project location map and all pertinent project data
 Civil Engineer's site plan
 Civil Engineer's water and wastewater plan and details
 Civil Engineer's grading, and utility plans and details
 Architectural floor plans, elevations, and details
 Structural Engineer's plans, calculations, elevations, and details
 Mechanical, Electrical, and Plumbing Engineer's plans and details
 Energy Code compliance reports (COMchecks) written using one of
the following as the Basis of Design for all reports: current adopted International Energy Conservation Code (IECC) or ASHRAE 90.1
CIVIL ENGINEER'S SITE PLAN GENERAL
 Legal description of the property (matching the latest recorded plat representation of the land)
□ Scaled and dimensioned
□ Δddress

GENE	ERAL
	Legal description of the property (matching the latest recorded plat representation of the land)
	Scaled and dimensioned
	Address
	North arrow indicated on plan.
	Bearing and distances for all property lines.
	Location of all the recorded easement(s) on the property.
	Location of the public right-of-way adjacent to the property.
	Plans showing dimensions for all existing and proposed sidewalks, driveway approaches, paved areas, retaining walls, streets, curbs and gutters and storm water detention structures with drainage easements, as required.
	Complete Site Grading plan(s) with existing 2' contour interval and proposed contours with appurtenant details.
	Retaining Wall and/or Fence details: including complete description of materials, location, and appearance.
	Layout and design of the parking areas, including spaces and travel-ways for the disabled.

_	ENGINEER'S SITE PLAN DPLAIN / FLOODWAY & REPORT, if required Boundaries of all FEMA designated flood plains affecting the project Indicate FIRM Base Flood Elevation and finished floor elevation (BFE + 2' freeboard) for each structure and utility, if applicable. Indicate whether structures and utilities will be elevated, or flood proofed, if applicable.
	Initial Elevation Certificate based on construction drawings, if applicable.
ARCH	Code Matrix / Means of Egress / Life Safety Plan Floor Plan(s) Finish Schedule (floor, base, wall and ceiling for each room and space) Wall and floor / roof / ceiling sections and details Wall partition type(s), including UL Listed design (or other appropriate agency's) numbers for all fire rated assemblies. Reflected ceiling plan(s), including ceiling height. Exterior elevations
	Control Investigation Report on applicable
	Geotechnical Investigation Report, as applicable. Foundation plan(s) and details
	Design Loads: List of Combinations (IBC 1605.1)
	Live Loads: (IBC 1607.1) List Design floor Live Loads for each use category. State Live Load reductions, if any, and show basis (IBC 1607.9) Design Wind Load (ASCE 7 & IBC 1609.1.1) Show basis of design wind mph for primary frames and systems (IBC 1609)
	 State Importance Factor I (IBC 1609.4) Superstructure: walls, roof cmu, etc. Wind brace, wall brace, and shear wall plans Pre-engineered Metal Building (PEMB) plans List of Special Inspections per IBC CH. 7 Miscellaneous Site Structures: e.g., detention basins, retaining walls, fences, etc., and location on plans.

MECHANICAL: Provide sufficient plans, details, and specifications to comply with all applicable sections of IBC and IMC per jurisdiction, including but not limited to: Duct Plan, Equipment Schedule, Heating and Cooling Load and Outdoor Ventilation Air calculations. ELECTRICAL: Provide sufficient plans, details, and specifications to comply with all applicable sections of the IBC and NEC per jurisdiction, including but not limited to: Power and Lighting Plans, Light Fixture Schedule, Electrical Demand Load and Fault Current calculations, Riser and Feeder Diagram, Panelboard, Light Fixture Schedules, and Grounding and Bonding details. PLUMBING: Provide sufficient plans, details, and specifications to comply with all applicable sections of the IBC, IFGC and IPC per jurisdiction, including but not limited to: Fixture Schedule (TCEQ flush)

volume and flow compliant for water conservation), Fixture Calculations based on Occupant Load and Occupancy Group(s), Water Heater type, capacity, energy source and recirculating pump(s) as applicable, Water

Demand calculations, Water Supply and Drain / Waste / Vent Riser diagrams, Gas demand calculations and Riser Diagram, Grease Interceptor sizing calculations, and Roof Drainage calculations for primary and secondary drains, as applicable.

PLAN CHECKLIST FOR OTHER PROJECTTYPES

ADDITIONS, ALTERATIONS, & REMODELS		
	Demolition of 100SF or more requires an Asbestos Containing Material	
	Survey or letter from Architect per Texas Department of Health Services.	
	Architectural Existing Floor Plan and Proposed Floor Plan, Elevation	
	drawings and Wall Section details where applicable.	
	TDLR Architectural Barriers Project Registration 'TABS' number	
	Engineered Foundation Plans and Details where applicable.	
	Special Inspections Sheet	
	Framing Plans (Engineered for Groups A, E, and I)	
	Code Matrix / Means of Egress / Life Safety Plan	
	Finish Schedule	
	Fire Rated construction details where applicable.	
	MEP Plans, Schedules, and Details	
	COMcheck reports where applicable.	
	Heating and Cooling Load calculations where applicable	

BACKUP GENERATORS □ Site Plan* showing all existing structures and proposed Generator location. □ Engineered Foundation Plan and Details □ Electrical Plans including ATS, Grounding, Riser Diagram and Panel Schedule □ Gas Piping Demand Calculations and Gas Plans where applicable
TEMPORARY SALES OR CONSTRUCTION TRAILERS ☐ Site Plan* showing all existing structures and proposed Trailer location. ☐ Anchor / Tie-down and Pier Plans ☐ For Sales Trailers, an approved Parking Plan with Accessible Exterior Route, and Ramp Plans. ☐ Manufacturer's Floor Plan and Elevation drawings ☐ Accessible Toilet Facilities within 500'
AWNING OR CANOIPES Site Plan* showing all existing structures and proposed Awning / Canopy Historic Commission approval where applicable Plans including Elevations and Details
CELLTOWER ☐ Site Plan* showing all existing structures and proposed CellTower ☐ Engineered Foundation Plan and Details ☐ Engineered Electrical Plans including Specs, Grounding, Riser Diagram and Panel Schedule
POOLS: Plans, Details, and Construction Documents must comply with the city adopted International Swimming Pool and Spa Code (ISPSC), National Electric Code (NFPA 70) and the Texas Department of Heath Services Public Swimming Pools and Spa Rules Title 25, Part 1, Chapter 265, Subchapter 11. Permit Application Scope of Work, including Pool Classification and Pool Type. Site Plan* showing all existing structures and proposed Pool. Bather Load Pool Plans and Details Barrier and Gate Plan and Details Pool Electrical Plan and Details Pool Plumbing Plan and Details Pool Plum

□ Deck Plan and Details.

AMBULATORY CARE FACILITIES / DENTAL CLINICS (INCLUDING SEDATION DENTISTRY) / DIALYSIS CENTERS / SURGERY CENTERS / COLONIC CENTERS / PSYCHIATRIC CENTERS			
 TDLR Architectural Barriers Project Registrations 'TABS' number. Engineered Foundation Plans and Details where applicable. Special Inspections Sheet 			
 Framing Plans and Details Architectural Floor Plans, Elevation drawings and Wall Section details Code Matrix / Means of Egress / Life Safety Plan 			
 Finish Schedule Fire Rated construction details where applicable MEP and Med-Gas Plans, Schedules, and Details COMcheck reports where applicable. 			
 COMcheck reports where applicable. Heating and Cooling Load calculations where applicable 			
ILLUMINUATED SIGN			
Electrical Plans and DetailsSign Plans and Elevations			
FREESTANDING POLE OR PYLON SIGN			
 Site Plan* showing all existing structures and proposed Signs. Engineered Foundation Plan and Details. Electrical Plans 			
☐ Sign Plans and Elevations			
FOODTRUCK			
☐ Site Plan* showing all existing structures and proposed FoodTruck			
Floor plan scaled and dimensioned.Electrical Plans and Energy source (Electric Utility or On-Site Generator)			
☐ Gas Plans where applicable			
 Plumbing Plans and Fixture Schedule: must show source of Water Supply, Valve(s), and Backflow Prevention Assembly 			
☐ Access to localToilet Facilities Agreement - must be within 500.'			
 Hood Plans with Suppression System Solid Fuel barbeque appliance requires manufacturer's installation instructions. 			
 Grease Interceptor and if there is a Sewer Connection 			

*Site Plan must be scaled and dimensioned, indicate all setbacks and easements. For Swimming Pools, Electric Utility Power Poles, Underground and Overhead Electrical must be shown on the Site Plan.
